

A more sustainable world will mean changing our assumptions about design, and what should be designed. This course will focus on the role of design in all its disciplinary manifestations.

*Transdisciplinary
Design for
Transformation*

DATE & TIME

4 to 9 June 2018

It will run Monday to Friday from 08:15 to 17:15 and Saturday from 09:00 to 13:00

VENUE

The Sustainability Institute, Lynedoch Road, Off Baden Powell/R310, Stellenbosch

PRICE PACKAGES

6-day Course: Individual | R10 500 (R13 000 with accommodation)

6-day Course: 2 people | R20 000 (R24 250 with accommodation)

6-day Course: 3 people | R29 250 (R35 625 with accommodation)

The above prices include lunch and tea breaks (Mon – Fri). Accommodation is for 5 nights, and includes breakfast. Additional nights and meals will be charged for. Please note that accommodation will be invoiced separately from the short course fee by the Drie Gewels Eco-lodge at the Sustainability Institute, and is dependent on availability.

SHORT COURSE

Design has affected the shape and experience of industrialisation, urbanisation, urbanism, political economics, power relationships, globalisation and the quest for a sustainable future. It has shaped ethics and leadership styles and processes.

Through its function of object-making, communication-making, space-making, experience-making and systems-making, design plays a powerful role in the forming of values, identities, lifestyles, aspirations, expectations, choices and behaviour.

These choices determine our relationship with 'stuff', with 'other' groups, with our environment, with the planet, with the future, with reality. If we want to change this relationship, we need to know how design works and what it will take to redesign the material world.

When attending this short course at the Sustainability Institute, the entire space is part of the learning experience. Come and learn in an environment that is engaging and mindful, where discussions can be enjoyed with a diversity of people, creativity be renewed through immersion, where we learn with nature in mind and ensure just futures are sustained through generative thinking.

CERTIFICATE

Attendees who satisfy the minimum performance requirements i.e. attendance of the full 6-day course, full participation and contribution to class and group projects, will be awarded a Certificate of Attendance from USB-ED.

THIS COURSE IS IDEAL FOR

Postgraduate students and practitioners interested in how design works and what it will take to redesign the material world. The course will question whether design is Master of, Slave to, or Collaborator with, the dominant socio-political-economic-technical system.
